

Seamless Wireless Internet and Mobile Calls with Plantronics

New Plantronics .Audio™ 920 - the Ultimate Bluetooth Headset Solution for Internet and Mobile Phone Calls

Plantronics, Inc. today launches the new .Audio™ 920, a Bluetooth® Headset that combines all-day-wearing comfort, superb audio quality and unique USB technology that allows calls from PC's and from mobile phones in the same headset.

Designed for a business user who takes and makes calls from multiple devices, the new Plantronics .Audio™ 920 headset features multipoint connectivity enabling connection to a computer and mobile phone at the same time. Users can take a call from either device and switch between the two seamlessly.

With Plantronics' award winning noise cancelling microphone and WindSmart® technology, the .Audio™ 920 offers superior crisp, clear audio clarity, even in noisy or windy environments. Its unique Bluetooth® voice adaptor ensures there are no PC drivers to install, allowing a true plug and play experience and offers control of softphone applications from the headset.

"This is real wireless freedom!" said Eric Extier, of Plantronics, Inc. "In today's multi-modal communication world, it has become the norm to take and make calls from many devices. The Audio™ 920 brings devices together and gives users wireless freedom to move from their desks, multitask or find a quiet spot to take a call from either their PC or mobile phone."

The Bluetooth® technology gives users the freedom to roam up to 10 metres away from their PC and mobile phone and the intuitively placed volume controls allow quick and easy volume adjustments. The .Audio™ 920 offers up to eight hours talk time, and 180 hours stand-by time from a single battery

charge.

Pricing and Availability:

The new Plantronics .Audio™ 920 headset costs in the region of £69.00 (including VAT), and is available from major national electronics retailers.

About Plantronics

In 1969, a Plantronics headset carried the historic first words from the moon: “That’s one small step for man, one giant leap for mankind.” Since then, Plantronics has become the headset of choice for mission-critical applications such as air traffic control, emergency dispatch, and the New York Stock Exchange. Today, this history of Sound Innovation™ is the basis for every product we build for the office, contact centre, personal mobile, entertainment and residential markets. The Plantronics family of brands includes Plantronics, Altec Lansing, Clarity, and Volume Logic. For more information, go to www.plantronics.com.
